(3 bags Rose/yd³)

FAST 5 to 20 by Deco-Crete Supply is an economical system that allows you to stock 5 base colors to create 20 custom colors using our simple formula. Each color is packaged in lightweight water-soluble bags, making this color system easy to use.

The colors shown are an approximate representation of concrete with a flat trowel finish and unsealed. DecoCrete is not responsible for application methods, finishing techniques, or any other variables that cannot guarantee the final appearance to be an exact match. Texturing or other finishing techniques such as troweling or brooming, slight variations in raw materials, and the use of sealers may produce color variations. DecoCrete strongly recommends that a representative jobsite sample be made for each product used.
